

## Aims and Scope

- ESPR is chemical-compound oriented but also covers all of Environmental Science.
- ESPR is a peer-reviewed journal with at least two experts reviewing each paper.
- ESPR is listed in Science Citation Index. Impact Factor **2006: 1.980** in the subject category Environmental Sciences.
- The platform of ESPR is the ESS (Electronic Submission System) to be accessed at: <http://www.scientificjournals.com/sj/all/ESS>
- One open-access article per issue is provided for free.

ESPR serves the international community in all areas of Environmental Science and related subjects with emphasis on chemical compounds. It reports from a broad interdisciplinary perspective. Apart from the strictly scientific contributions as research articles (short and full papers) and reviews, ESPR publishes: news & views from research and technology, legislation and regulation, hardware and software, education, literature, institutions, organizations, conferences.

ESPR serves a large and diverse audience: Action groups, Consultants, Educated laymen, Engineers, Environmental scientists, Lawyers, Physicians, Public and industrial health personnel, Regulators.

ESPR's information should also be useful for planning lectures and university environmental curricula.

**A global network of Subject Editors associated to the thematic framework of Nine Subject Areas** (see front inside and back inside cover) represents a variety of disciplines and groups of interest: academia, industry, administrative bodies, government, consulting companies. This network safeguards the international and interdisciplinary character of the journal and ensures appropriate refereeing procedures (peer review).

ESPR is the Official Organ of **EuCheMS DCE** (European Association for Chemical and Molecular Sciences).

## Types of Contributions

- ESPR Research Articles
- ESPR Short Original Communications
- ESPR Research Communications (two-pagers)
- ESPR Reviews
- ESPR Commentary Articles (research issues that are of interest to readers outside research)
- ESPR Discussion Articles (research issues to be discussed with the ESPR community)
- ESPR Opinion Articles
- ESPR News & Views (recently published advances in research and technology, policy and legislation, education, new institutions, hard and software, literature, conferences)
- ESPR Editorials
- ESPR Leading Articles
- ESPR Letters to the Editor (for the discussion of scientific matters of current interest)
- ESPR Conference Reports
- ESPR Book Reviews

**Using the Endnote reference program:** To assist in article submissions to Int J LCA, authors can download the journal's Endnote style under <http://www.scientificjournals.com/sj/pdf/lca/LCA.ens>. When used with the Endnote program, this style will format your manuscript's intext citations and reference lists to suit the Journal's referencing requirements. The file needs to be saved into the EndNote/Styles folder (usually C:\Program Files\Endnote\Styles or C:\Programme\Endnote\Styles).
