

## Contents

**Front Cover:** This Special Issue presents 10 articles covering ESPR's 'Total Environment' in the following ways:

1. 'ESPR's Total Environment' is the framework consisting of 9 thematic areas and a special section on Research Progress in China (see the front and back inside cover).
2. Subject Editors and their associates from all over the world are allocated to the 10 areas (see the front and back inside cover).
3. The thematic areas actually cover Environmental Science. In this sense, ESPR's total environment as microcosm does reflect the macrocosm of the Total Environment. See also the Editorial on pp 1–2.

**Cover design:** Edwin Grondinger, abavo GmbH, Nebelhornstraße 8, 86807 Buchloe, Germany  
(edwin.grondinger@abavo.de; <http://www.abavo.de>)

**Front cover, inside:** Editor and Subject Area Framework

**Back cover, inside:** Editor and Subject Area Framework, continued

**Back cover:** ESPR's mission

- 3A Contents
- 4A Call for Papers: Challenges in Environmental Science – Reviews
- 4A Impressum ecomed and Springer

### Editorials

- 1–2 ESPR's Total Environment  
Henner Hollert, Markus Hecker, Christian E.W. Steinberg and Alvin L. Young

#### Subject Area 1 – Terrestrial Ecology and Biology, Health Issues

- 3–10 Biological Activity in a Heavily Organohalogen-Contaminated River Sediment \*\*  
Michael Bunge, Mika A. Kähkönen, Winfried Rämisch, Matthias Opel, Susanne Vogler, Fred Walkow, Mirja Salkinoja-Salonen and Ute Lechner

#### Subject Area 2 – Aquatic Chemistry and Biology, Health Issues

- 11–18 Differential Sensitivity of a Coccal Green Algal and a Cyanobacterial Species to Dissolved Natural Organic Matter (NOM) \*\*  
Valeria Yu. Prokhotskaya and Christian E.W. Steinberg

#### Subject Area 3 – Atmospheric Chemistry and Physics, Health Issues

- 19–22 Analysis of the Trend and Seasonal Cycle of Carbon Monoxide Concentrations in an Urban Area \*\*  
Carmen Capilla

#### Subject Area 4 – Environmental Education, Policies, Politics, Health Issues

- 23–30 The OECD Validation Program of the H295R Steroidogenesis Assay for the Identification of *In Vitro* Inhibitors and Inducers of Testosterone and Estradiol Production. Phase 2: Inter-Laboratory Pre-Validation Studies \*\*  
Markus Hecker, Henner Hollert, Ralph Cooper, Anne-Marie Vinggaard, Yumi Akahori, Margaret Murphy, Christine Nellemann, Eric Higley, John Newsted, Rudolph Wu, Paul Lam, John Laskey, Angela Buckalew, Stefanie Grundt, Makoto Nakai, Gary Timm and John Giesy

#### Subject Area 5 – Environmental Microbiology, Biotechnology, Health Issues

- 31–35 Biosorption and Biovolatilization of Arsenic by Heat-Resistant Fungi \*\*  
Slavomír Čerňanský, Martin Urík, Jaroslav Ševc and Miloslav Khun

#### Subject Area 6 – Environmental Analyses, Monitoring, Health Issues

- 36–43 Fractionation and Determination of Ah Receptor (AhR) Agonists in Organic Waste After Anaerobic Biodegradation and in Batch Experiments with PCB and decaBDE \*\*  
Helena Olsman, Anna Schnürer, Helén Björnfoth, Bert van Bavel and Magnus Engwall

#### Subject Area 7 – Risk Assessment, Risk Management, Health Issues

- 44–52 Fragrances in the Environment: Pleasant Odours for Nature? \*\*  
Ursula Klaschka and Marike Kolossa-Gehring

#### Subject Area 8 – Sustainable Agriculture, Health Issues

- 53–60 Organic Contaminants from Sewage Sludge Applied to Agricultural Soils. False Alarm Regarding Possible Problems for Food Safety? \*\*  
Frank Laturnus, Karin von Arnold and Christian Grøn

#### Subject Area 9 – Conservation Biology

- 61–68 Evaluation of Organochlorine Compounds (PCDDs, PCDFs, PCBs and DDTs) in Two Raptor Species Inhabiting a Mediterranean Island in Spain \*\*  
Begoña Jiménez, Rubén Merino, Esteban Abad, Josep Rivera and Kees Olie

#### Subject Area 10 – Special Section: State-of-Art in China – Research Progresses

- 69–75 An Estimate of Biogenic Emissions of Volatile Organic Compounds During Summertime in China \*\*  
Qin'geng Wang, Zhiwei Han, Tijian Wang and Yoshiro Higano

### Order Form ESPR Special Issue

- 76 ESPR's Total Environment

#### \*\* Peer-reviewed

ESPR is listed, indexed and abstracted by the following documentation services:

<b>BIOSIS</b>	BioBusiness database, Philadelphia, PA, USA
<b>CABI</b>	(CAB International), Publishers Relations and Information Resources, Wallingford, Oxon OX 10 8DE, UK
<b>CAS</b>	Chemical Abstracts Service, Columbus, OH/USA
<b>CEABA-VTB</b>	Chemical Engineering and Biotechnology Abstracts, DECHEMA, Frankfurt/Main, Germany
<b>CIS</b>	Congressional Information Service, Bethesda, Maryland, USA
<b>Elsevier BIOBASE</b>	Current Awareness in Biological Sciences, Amsterdam, The Netherlands
<b>Elsevier Geobase</b>	<a href="http://www.elsevier.nl/locate/geobase">www.elsevier.nl/locate/geobase</a> – Coverage of ESPR began in 1997
<b>ISI-SCI</b>	Science Citation Index, ISI Alerting Services, and Current Contents/Agriculture, Biology, and Environmental Sciences
<b>LexisNexis Group</b>	7500 Old Georgetown Road, Suite 1300, Bethesda, MD 20814-6126, USA
<b>Medline and Pubmed</b>	<a href="http://www.ncbi.nlm.nih.gov/entrez/query.fcgi?db=PubMed">http://www.ncbi.nlm.nih.gov/entrez/query.fcgi?db=PubMed</a> : PubMed, a service of the National Library of Medicine, includes over 15 million citations for biomedical articles back to the 1950's. These citations are from MEDLINE and additional life science journals. PubMed includes links to many sites providing full text articles and other related resources. Coverage of ESPR began in 2001
<b>SCOPUS</b>	Elsevier <a href="http://www.info.scopus.com">http://www.info.scopus.com</a> . Coverage of ESPR starting in 1994
<b>UFOR/ULIT/URDB</b>	Federal Environmental Agency (UBA), Berlin, Germany
